Gisele Ribeiro

Mobile Developer

Location: Teresina, PI, Brazil | **Phone:** +55 86 99504-2836 | **Email:** giselesousar@email.com
LinkedIn: linkedin.com/in/giselesousar | **Portfolio:** https://giselesousar.github.io/

SUMMARY

Mobile Developer with solid experience in React Native, focused on improving and maintaining cross-platform applications to optimize user experience. Proficient in agile methodologies (Scrum, Kanban), collaborating with cross-functional teams to deliver projects efficiently. I also have experience as a **Full Stack Developer**, working on the development of web systems and custom applications. Passionate about innovation and always seeking new challenges to enhance my technical skills.

SKILLS

Proficient: React.js, React Native, Python, Node.js, TypeScript, JavaScript, Expo, REST APIs, HTML, CSS, Git
Intermediate: Python, CI/CD, MySQL, SQL Server, Scrum, Kanban, React Query, GraphQL
Beginner: C#, Spring Boot, Cypress, AngularJS

PROFESSIONAL EXPERIENCE

Mobile Developer

nav9, Pelotas, BR – Remote   05/2022 to Present
Core Responsibilities:

- Responsible for technical and architectural decisions, development of new features, bug fixing, and continuous management and publication of applications on the App Store and Play Store across various projects and sectors.
- Contributed to the redesign of a healthcare application, optimizing appointment scheduling flows and significantly improving the user experience in close collaboration with the design team and the client.
- Worked in cross-functional teams using agile methodologies, actively participating in Scrum ceremonies and contributing to continuous and collaborative deliveries.
- Also worked on the development of web applications using React.js, creating responsive interfaces focused on performance, usability, and API integration.

Key Technologies and Tools: React Native, TypeScript, Kotlin (Android), Redux, React Query, Firebase, Bitrise, Git, GitLab, Bitbucket, GitHub, Xcode, Android Studio, Figma, App Store Connect, Google Play Console, Scrum, Kanban.

Front-end Developer

Supra, Teresina, BR – Remote   08/2023 to 03/2024
Core Responsibilities:

- I participated in the development of an educational platform composed of a mobile app and a web version, focused on managing student activities and performance.
- Developed responsive and interactive interfaces using React.js and React Native with Expo, following dark/light design patterns, intuitive navigation, and reusable components.

- Implemented complete authentication flows including login, password recovery, and reset, integrated with APIs.
- Contributed to building complex screens such as cards, quizzes, schedules, answer keys, and performance charts, integrated with REST APIs.
- Structured offline functionalities (content saving) and interactions such as comments, notes, and activity filters, enhancing the overall user experience.

Key Technologies and Tools: React.js, React Native, Expo, Realm, TypeScript, HTML, CSS, REST API, Git, Figma.

FullStack Developer

Freelancer, Teresina, BR – Remote   09/2020 to 07/2021

Core Responsibilities:
- I was responsible for the creation and development of an e-commerce mobile app for construction materials and a web management system, focused on optimizing inventory control, orders, and information displayed in the app.
- Participated in requirements definition with the client, aligning expectations and proposing appropriate technical solutions.
- Implemented the backend using Node.js and TypeScript, leveraging GraphQL and SQL Server for efficient data management.
- Developed the cross-platform mobile app using React Native and Expo, published on both the Play Store and App Store.
- Built the web admin panel with React.js, prioritizing usability, performance, and backend integration.
- Contributed to interface design, infrastructure, and automated app deployment using EAS (Expo Application Services).

Key Technologies and Tools: React Native, TypeScript, HTML, GraphQL, Node.js, MySQL, React.js, TypeScript, Expo.

Web Developer Internship

State Court of Auditors of Piauí (TCE-PI), Teresina, BR – On-site   02/2022 to 05/2022

Core Responsibilities:
- Planning and development of a web system for consulting procedural deadlines, including the creation of a REST API to handle HTTP requests.
- Development of web applications using the Angular framework.
- Monitoring the planning and development of system improvements for the court.

Key Technologies and Tools: Angular, Spring Boot, SQL, MongoDB.

Web Developer Internship

KORP, Paraná, BR – Remote   06/2021 to 12/2021

Core Responsibilities:
- Planning and development of microservices to handle HTTP requests with a focus on efficiency and maintainability.
- Development of web applications using the Angular framework and front-end testing with the Cypress tool.
- Monitoring the planning and development of system improvements within the company.

Key Technologies and Tools: C#, JavaScript, TypeScript, AngularJS, Cypress.

EDUCATION
Bachelor of Computer Science
Federal University of Piauí, Piauí, Brazil   03/2018 to 05/2022

Information Technology (Technical Degree)
Federal Institute of Piauí, Piauí, Brazil   01/2014 to 12/2017

ACADEMIC WORK
Co-author of the article *"SysRepoAnalysis: A tool to analyze and identify critical areas of source code repositories"*, published in the proceedings of ACM IHC 2022. Available at: https://dl.acm.org/doi/10.1145/3555228.3555281.
